

This is the de Havilland Comet. It was the first jet airliner in the world and it was made in Britain at the Hatfield Aerodrome in Hertfordshire. You can see from the departures board that it travelled all over the world but the board has malfunctioned! Several departure and expected times are missing - can you use the flight times on the map to work out the missing times and find out which one in the box on the right is incorrect?

✈ DEPARTURES

DEPARTURE	FROM	FLIGHT NO.	GATE	EXPECTED
07:35	CAPE TOWN	HDU90	15	
	RIO DE JANEIRO	LA3211	24	23:01
